

Chang-Yu (Cecilia) Yin

An IT and project management professional with over 10 years of experience in ERP, BPM, and system integration across insurance, telecom, and manufacturing industries. Expertise spans SAP implementation (MM/FI/CO), BPM system replacement, legacy modernization, and data governance. Currently leading AI-powered BPM and process automation initiatives, focusing on AI infrastructure, governance, and SDLC automation. Seeking opportunities as an AI Project Manager or Digital Transformation Project Manager to drive impactful, technology-enabled business change.

Experience

Project Manager

Sercomm Corporation, Apr 2025 – Present

- Lead AI application and digital transformation initiatives, using generative AI tools such as Claude to build Python, FastAPI, and Vue applications, automated ETL pipelines, and REST APIs
- Drive the HCL Domino Notes data migration program with custom ETL tooling to support a next-generation BPM platform
- Lead an overseas development team on an API integration project
- Built an exchange rate automation solution that cut daily finance processing time from 30 minutes to under 5

Project Manager

104 Corporation, Feb 2023 – Oct 2024

- Led requirements gathering across Finance, HR, and General Affairs
- Analyzed business processes to design digitalization initiatives
- Translated business needs into system specifications and test scenarios
- Established cross-system data integration and data quality management processes

Business Analyst

Nan Shan General Insurance, Mar 2022 – Feb 2023

- Analyzed existing system workflows and proposed improvements for a multi-channel payment platform
- Supported SAP system upgrade testing and go-live rehearsals
- Led evaluation and adoption of an AI OCR document-recognition system
- Delivered data analysis and SAP BO/BW reporting to support business decisions
